第77回ARENA定期セミナー

Effect of Polyphenol Extracts, Nanoparticles and Spirulina-enriched Silicon on Oxidative Stress in Vivo and in Vitro

日時：平成27年5月14日（木曜日）17:30～19:00

場所：北アフリカ研究センター会議室（共同研究棟A301）

講演者：Dr. Rugani NATHALIE

Assistant Professor, Faculty of Sciences, University of
Montpellier

Abstract: Professor Natalie Rugani, a member of the Faculty of Sciences of the University of Montpellier will share with us her teaching and research activities, specifically on her role in the Master Edamus program - a graduate program that focuses on "Sustainable Management of Food Quality". Professor Rugani is an expert on Cell Biology and Nutrition. As the University of Tsukuba has established its office in the University of Montpellier this year, we hope that this seminar will just be one of our activities together that will serve to help strengthen our ties with the University of Montpellier.
